Have you had a challenging time understanding the assignment and the calling in your life? Sit quietly and observe the space within you that is aching to be experienced. Observe the stillness, the peace. The perfection in the space and pause. Divinity wishes to actualize itself as you.

What specifically in my past keeps revisiting me?  
How am I projecting this specific past experience  
into my present and into my future?

What can I acknowledge as new possibility so I can shift my belief  
and change my future?

What specifically is upsetting me right now?  
I acknowledge that every challenge is a catalyst to raise my  
Consciousness.  
Evolution can't happen without catalysts.  
I am not upset for the reason I think.

Think of something you wish to have in your future.  
Now say it like this: "When I have \_\_\_\_\_, I will be \_\_\_\_\_".  
Now remove the first part and just read the second part as  
"I am \_\_\_\_\_"

Now sit quietly and embody this new being..

**as though it has already happened**

Time to play a game.

Time to transform your mediocre daydreams,  
that are keeping you in a spell, into Sacred dreams.

Time to dream your world into BEING

Time to live a truly extraordinary life!

Close your eyes and imagine yourself living abundant,  
free, passionate, healthy

**and serving humanity in some way.**

We are Divine beings in a mammal body.  
When we sit and feel the emotions  
that come through us, we begin to unravel.  
Don't resist what you feel.  
Sit quietly and allow those emotions to come up for you and to  
**observe them with love and  
compassion.**

Everything is DIVINE all the time.  
Trust in Divine Timing.  
What is happening right now in my life that I am resisting?  
How is this Divine?

How is this Divine timing?

When you become lost in love, nothing else matters.  
Your heart sings and you are filled with meaning and joy.  
Think of a situation in your life where you feel like  
you are so far away from feeling lost in love.  
How can you become lost in love right now in this situation?  
When you change the way you look at things,  
**the things you look at change.**
